Join the Baja Bush Pilots on their annual “Pet a Whale” adventure. Four days of fun, excitement, whale petting, and this year, your choice of two places to base your adventure out of, the historic Hotel Serenidad in Mulege or the four star hotel Mission in Loreto. Whichever you chose, we will be doing the Whales experience at Lopez Mateos, the camp that we believe to be the best for its landing strip, number of boats, and the abundance of whales in its lagoon.

For the past some twenty years that I have been leading our Whales trip, almost all get a chance to see these whales That some say are as large as “greyhound buses” wrapped in Rubbermaid swimming all around them and most get to touch, feel, pet, and even kiss one. The BBP will be thee and so will the Whales...

For those that are looking for more, as you now have your choice of two trips with different bases, there is no end of other activities

available. In Mulege and based at the Serenidad, you get a taste of the real Mexico. From the

historic hotel there are side trips that could include cave paintings, fishing, and, not to be missed, the historic and “real” town of Mulege with its restaurants, bars, activities on the square, or, just people watching.

And if you do Loreto, it is the four star Mission hotel located on the waterfront as well as a four block walk to the zocalo which is the center of most of the activity in Loreto. In addition, you can rent a car and explore the surrounding area around Loreto.

So, you will pick your choice of trips when registering. We will confirm your choice and if one is sold out, will give you the option to use the other.

Arrival will be different for both locations. If Mulege, you will check into Mexico prior to landing Mulege. The BBP will not be doing your arrival paperwork but will be at the airstrip to direct and assist your landing and parking.

If Loreto, as Loreto is an International Airport, we handle almost all your arrival paperwork as well as your check-in procedures. The people at the airport have opened up the facilities to us so we control almost the entire check-in procedure that once started, takes about ten minutes per aircraft to complete.

Your arrival day is wide open and could be the time to look through your packet, make plans for the following day, take a dip in the pool, or, if in Mulege, be part of the arrival/landing unofficial landing committee who will be greeting each arriving aircraft as well as judging the landing skills of each pilot. (Yep, it is a scale of 1 – 10)

Still interested....

This is how it works for both locations:

In an effort to cut down on both air traffic and boat seating, we send half over to the whale camp on Friday and the other half on Saturday,

all flying from their home base across Baja to the fish camp and back. On the days you are not doing the whales, there are so many things to do including exploring the area, gathering by the pool, exploring downtown, pool time, and more.

The specifics for Mulege are:

Thursday: Arrive, check in, and meet/greet others, watch others arrive, (land) and more.

Lunch

Dinner on your own downtown or....

Friday: Breakfast then Whales or explore, etc.

Lunch

Street Party downtown Mulege (including dinner)

Saturday:
